PROJECTS

- Remote controlled car with speed/direction knobs and PID implementation, powered by microcontroller and using a potentiometer
- Self turning car when faced with an obstacle, using I2C communication and a compass
- Digital logic circuit that partially powered a 7 segment display (complete with truth table)

SKILLS

- Proficiency in C, Python, and Java
- Breadboarding and general circuit building
- Mathematically Proficient
- Good With Children
- Hard-Working
- Intelligent
- Committed Student
- Communication Skills
- Computer Skills

EDUCATION

RENSSELAER POLYTECHNIC INSTITUTE

Electrical Engineering Major

- First semester, took Physics 2, Differential Equations, and EE 101
- Second Semester, took Calculus 3, Linear Algebra, and Embedded Systems
- Third semester currently taking Circuits, Computer Hardware Design, and Engineering Design
- Learned digital logic using a seven-segment display, the basics of MATLAB and Simulink, and more electrical engineering fundamentals
- Gained experience working with microcontrollers, PID, wheel encoders, I2C communication, and programming in C (including basic syntax and timer interrupts)

WORK EXPERIENCE

SAF-T-SWIM - LIFEGUARD/SWIM

INSTRUCTOR, OCEANSIDE, NY

Septemeber 2023 - August 2025

- Enhanced swimming skills across diverse age groups
- Effectively communicated progress with parents and staff

W&L POOLS - LIFEGUARD, ATLANTIC BEACH, NY

May 2025 - August 2025, May 2026 - August 2026

- Learned to monitor and scan a large pool efficiently and safely

RPI POOL - LIFEGUARD, TROY, NY

September 2025 - Current

- Balancing working with academics

EXTRACURRICULARS

Eagle Scout

February 2018- March 2025

- Fundraised, planned, and executed a personal project of installing QR codes on statues at a local church
- Completed 60+ hours of community service
- Lead the entire troop in camping trips, meetings, and volunteer work

Club Swim Team

September 2025 - May 2026

- Balanced practice several times a week with academics and work
- Building a strong team chemistry with fellow teammates
